Canadian Citizen | +1 (647) 507-2727 | saoodalimughal@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY OF QUALIFICATIONS

- 3+ years building and deploying full-stack web applications and AI-powered systems using Python, JavaScript, and Java
- Delivered measurable results across internships and projects: **50% faster API response times**, **30% page load improvement**, and **40% stability gains**
- Experienced shipping features in Agile teams of 7–8+ engineers using Git, Docker, Railway, and Vercel

EDUCATION

University of Toronto

Toronto, ON

Bachelor of Science in Computer Science (Specialist), Minor in Mathematics

Expected Graduation: May 2027

- **Relevant Coursework:** Operating Systems, Software Engineering, Databases, Data Structures, Object-Oriented Programming

EXPERIENCE

Radical AI

May 2024 – Aug 2024

Software Engineer Intern

New York City, NY

- Reduced API response time by **50%** by developing **15+ AI-powered backend features** using Node.js/Express and Python
- Improved model reliability across **10+ test scenarios** by designing and optimizing **5+ ML models** with a performance monitoring system
- Delivered features on time across **20+ sprints** by collaborating in an Agile team of **8+ engineers** using Git-based workflows

Nirvo — Workplace Wellness Platform

Jan 2026 – Apr 2026

Full-Stack Developer

Remote

- Reduced page load time by **30%** by fully redesigning and rebuilding the company website using React and Next.js with **5+ interactive components**
- Streamlined user and payment management for **100+ users** by engineering an admin dashboard with role-based access control using Supabase and Stripe
- Boosted platform stability by **40%** by resolving **15+ critical bugs** and shipping **3+ AI-powered features** via OpenAI API in a **7-person Agile team**

PROJECTS

Vrcom Help Inc. B2C Storefront | *Next.js, React, Supabase, Shopify GraphQL API, Stripe, Tailwind CSS*

- Delivered a full-stack B2C storefront with **20+ API routes** by integrating Shopify's Storefront GraphQL API for product and cart management alongside Stripe payments and live Canada Post shipping rates
- Secured user accounts with a **3-layer auth system** (JWT cookies, bcrypt, email OTP) and automated restock alerts by verifying Shopify inventory webhooks with HMAC signatures via Supabase

UofT Campus Connect | *React, Node.js, Express, Prisma, PostgreSQL, Railway*

- Scaled a full-stack social platform to **100+ concurrent users** by building a React frontend with a Node.js/Express backend and **10+ RESTful API endpoints** with JWT auth
- Achieved **zero unplanned outages** post-deployment by **resolving 5+ production errors** on Railway using server logs and debugging tools

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, HTML, CSS, SQL (PostgreSQL & MySQL), C, Ruby, Bash

Frameworks: React, Node.js, Next.js, Express.js, Django, Tailwind CSS, Prisma ORM, Bootstrap

Developer Tools: VS Code, Git, Docker, Postman, SSH, Railway, Vercel, Chrome DevTools, Linux Terminal
